Re: MM Docket No. 99-325

Dear Ms. Dortch:

I am writing to request that the FCC approve signal multiplexing.

As a member of the Board of WFAE, a public radio station in Charlotte, NC, and its sister station WFHE in Hickory, NC, I recognize the benefits of a digital signal and believe the creation of a supplemental audio programming channel would greatly enhance our ability to offer enriching content to an expanded audience. Please vote to approve the signal multiplexing proposal.

Sincerely,

A handwritten signature in black ink, appearing to read "Garza Baldwin, III".

Garza Baldwin, III
